**Tobacco Production in This State For the Past Five Years**

According to the crop report published by the Department of Agriculture, Kentucky produced 381,024,000 pounds of tobacco in 1910, which was 38.7 per cent. of all the tobacco produced in the United States last year.

This was the banner crop of the Kentucky growers, whose production in the last five years has increased as follows:

- 1906—252,300,000 pounds.
- 1907—240,378,000 pounds.
- 1908—195,600,000 pounds.
- 1909—350,800,000 pounds.
- 1910—381,000,000 pounds.

The States next in production to Kentucky in the order named are North Carolina, Virginia, Ohio and Tennessee.

A comparative table of the wages of farm hands, also published in The Crop Reporter, shows that Kentucky at \$1.71 a day pays the second highest harvest hand wages in the South Central States, only Oklahoma, with \$1.97 a day, ranking her. At monthly rates, \$23.10, without board, Kentucky pays her farmhands the fourth highest wages in the South Central States, the highest being Oklahoma with \$28.10.

### High Wind on River

Old rivermen say that yesterday was the worst day ever seen on the Ohio river. The wind was blowing at the rate of forty and fifty miles an hour, and waves were rolling mountain high—generally speaking—making it dangerous for river craft to attempt navigation. It is said Elwood Maddox was blown into the river by the wind at the coal flats at the East End and had a narrow escape from drowning. Altogether it was a strenuous day for rivermen.

Mr. Fitzgerald is a former Maysville man and friends of the family rejoice that no serious injury resulted from the mishap.

# Does Your Back Ache?

If you are a woman and you have this symptom get Lydia E. Pinkham's Vegetable Compound without delay. Backache seems an invention of the evil one to try woman's souls. Only those who suffer this way can understand the wearing, ceaseless misery.

We ask all such women to read the following letter for proof that Mrs. Pinkham's medicine cures backache caused by woman's diseases.

Morton's Gap, Kentucky.—"I suffered two years with female disorders, my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had soreness on each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and Liver Pills and am enjoying good health. It is now more than two years and I have not had an ache or pain since. I do all my own work, washing and everything, and never have the backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. Ollie Woodall, Morton's Gap, Kentucky.

Lydia E. Pinkham's Vegetable Compound has made thousands of cures of such cases. You notice we say has cured thousands of cases. That means that we are telling you that it *has* done, not what we *think* it will do. We are stating facts, not guesses.

We challenge the world to name another remedy for woman's ills which has been so successful or received so many testimonials as has Lydia E. Pinkham's Vegetable Compound.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

Danderine

GROWS HAIR and we can

PROVE IT!

A lady from Minnesota writes: "As a result of using Danderine, my hair is close to five feet in length."

Beautiful Hair at Small Cost

HAIR troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment; when baldness occurs the scalp has simply lost all its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions).

The natural thing to do in either case, is to feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Knowlton's Danderine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair ever discovered that is similar to the natural hair foods or liquids of the scalp.

It penetrates the pores quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One 25-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself.

NOW at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.

FREE To show how quickly Danderine acts, we will send a large sample free by return mail to anyone who sends this free coupon to the KNOWLTON DANDERINE CO., CHICAGO, ILL., with their name and address and 10c in silver or stamps to pay postage.

Corn Show Passed Up

Lexington's efforts to secure the National Corn Show, which will be held next September, came to a sudden halt when Mayor John Skain received a letter from the Executive Committee, which has authority to select the place for the meeting, stating that it would cost the city \$40,000 to secure the show. Mayor Skain doesn't think that the show is worth the money, so Lexington will step aside and let the big cities go after the meeting.

FAIR AUDIENCES

Despite the Fierce March Winds, Heard Rev. Smith's Sermons Yesterday

The fierce blizzard that struck our town yesterday and last evening no doubt deterred many from attending the revival services at the Third Street M. E. Church.

However, a congregation far exceeding expectations was present, thus demonstrating the great interest in the meetings. A noticeable fact was that there was no falling off in the number of men attending, the weaker sex being the ones kept at home by the weather.

The congregation was rewarded by hearing a splendid sermon from Rev. Smith. He is truly preaching the Gospel in all its simplicity, its power to save and to keep saved for eternity. The progress of the meetings is encouraging to all who are so deeply interested. Services again this afternoon at 2:30, when Rev. Smith will preach from the question, "Where Hast Thou Gleaned," and at 7:30 when the subject will be "Watchman, What of the Night?"

Brave the weather and attend these services. It is to your interest to do so. This is the appointed time and if the people arise to their opportunity the revival fire will spread over the whole city and country hereabouts.

Suits Filed

Merz Bros. have filed suit in the Mason Circuit Court against the C. and O. Railway Company for damages in the detention and failure to deliver a consignment of goods at the proper time. The transaction occurred in 1909, being a shipment of matting from Japan. The goods were detained in the depot for months, for which the firm wants \$175 damages.

VALUED HEIR LOOMS

Oil Portrait and Masonic Apron of Arthur Fox, Sr., Placed in Dover Lodge

Dover News.

Last week Mr. T. H. Fox placed in the Hall of Fox Lodge No. 386, F. and A. M., a portrait of his grandfather, Mr. Arthur Fox, who during his life was one of the most prominent citizens of this section and owner of several thousand acres of land in and around Dover. He was a prominent Mason, and it was in his honor that Fox Lodge was so named. The portrait was placed in custody of the Lodge until called for and it now hangs in a place of honor back of the Master's Station.

On Saturday evening, Mr. Charles E. Curran, also a nephew of Mr. Fox, placed in custody of the Lodge another valued heirloom of the Fox family until such time as he may call for it. It is a handsome satin Masonic apron owned and worn by Mr. Arthur Fox seventy odd years ago. The apron is more than 75 years old. Although slightly stained by time it is well preserved. It is beautifully ornamented with emblems of the various degrees of the Order. It will be carefully preserved as long as it is allowed to remain in charge of the Lodge.

The gage marks 21.2 and falling.

All the fire is on top and has to eat down into the fresh coal against the draft. Combustion is slow and perfect, and smoke, soot and gases are entirely eliminated. This enables Underfeed furnace and boiler users to
